

The event organiser has put together a rough image of the route from the registration/ticketing collection space (31) to the start venue.

Getting to the Start Line

See the map showing access into the venue from the public car park. From the registration marquee (#31), Masters athletes will head to the underpass on the left (first arrow). There will be signage and fencing to direct athletes through to the activation and start area. Staff and volunteers will be available to assist and fencing will direct you through the venue.
